ABOUT US

Glamiva Laminates holds a distinguished position as a global leader in decorative laminates and surface solutions, a testament to our commitment to quality and innovation. Recognized as one of the industry's largest manufacturers, our products consistently deliver excellence and ingenuity.

Our strong presence in over 90 countries reflects our dedication to superior quality. Despite the rapidly evolving technologies in our industry, we ensure that our laminates meet the highest international standards.

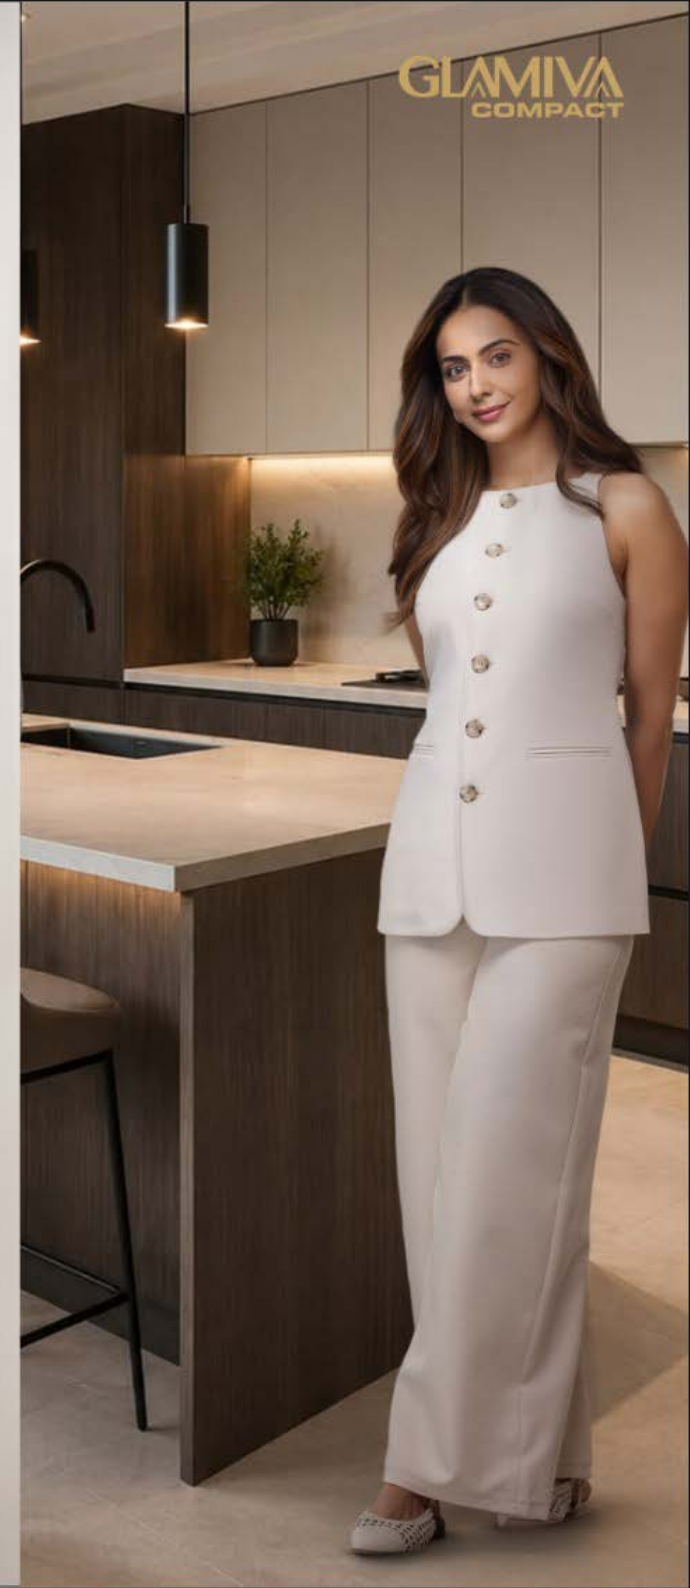

Our expansion into Plywood, Laminates, Compact Laminates, Exterior Cladding, Panels & Aluminum, in addition to our interior architectural solutions, demonstrates our versatility and willingness to explore new markets while maintaining our focus on surface and interior solutions. This enables us to serve a diverse range of customer needs across various industries worldwide.

Our commitment to quality and innovation is the key to our success, helping us maintain a strong position in the highly competitive global market for decorative laminates and surface solutions.

GLAMIVA
COMPACT

Crafted to endure a range of physical extremities, the internal makeup of Compact Grade Laminates is what defines their value and suitability for various applications. Key features include durability, strength, moisture resistance, and impact resistance, all of which are essential for performance in commercial, institutional, and hospitality settings.

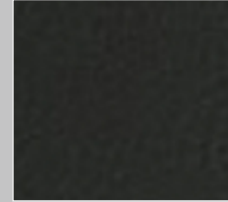

Compact Grade Laminates are surfaced on both sides with decor papers and consist of multiple layers of kraft paper fused together to form a structural laminate. This makes them ideal for tabletops, locker doors, restroom cubicles, wall panels, and furniture.

Beyond the standard 1220 × 2440 mm size, Glamiva Compact Grade Laminates are offered in a range of larger, application-friendly formats: 1220 × 3050 mm, 1300 × 3050 mm, 1525 × 3660 mm, 1845 × 2135 mm, 1845 × 3660 mm, 1845 × 1845 mm, and 1845 × 4320 mm (with all cut sizes). These larger formats reduce the need for joints, ensuring a cleaner and more seamless finish for wall and cubicle panel applications.
